O. BYRNE.

THE MUNICIPAL CONTEST.

The Nominations—Candidates are Plentiful.

Monday was nomination day. Contrary to expectation the woods were full of aspirants for municipal honors. The following were the nominations:

MAYORALTY.

Wm. Grayson, nominated by C. A. Gass, seconded by H. U. Rorison.
Hamilton Lang, nominated by W. D. Palmer, seconded by Thos. Wright.

The following were nominated as councillors:

R. J. Brown, nominated by J. Fitzpatrick, seconded by J. Blackburn.
E. Colpitts, nominated by J. W. Bradshaw, seconded by J. W. Glassford.

A. Davidson, nominated by E. Colpitts, seconded by J. W. Glassford.
Hugh Ferguson, nominated by A. R. Turnbull, seconded by C. A. Gass.

O. B. Fysh, nominated by H. McDougall, seconded by E. Colpitts.
F. W. Green, nominated by J. Bellamy, seconded by J. W. Bradshaw.

Wm. Hinnah, nominated by C. A. Gass, seconded by Neil McMillan.
W. W. Nealand, nominated by H. U. Rorison, seconded by J. A. Calder.

W. D. Palmer, nominated by T. Wright, seconded by J. S. Ostrander.
Jas. Simington, nominated by G. M. Annable, seconded by G. B. Wallace.

C. A. W. Stunt, nominated by Russell Wilson, seconded by Hugh Ferguson.

Wm. Wale, nominated by E. Colpitts, seconded by H. U. Rorison.
A. W. Wright, nominated by J. Ostrander, seconded by J. W. Timmins.

The meeting was then adjourned until

WEDNESDAY EVENING

when the town hall was filled with ratepayers. After a speech from Mayor Rorison the following financial statement was presented by Councillor Nealand, chairman of the finance committee:

Statement of moneys received and expended by the Town of Moose Jaw, for the year 1892, from January to the 26th December.

Speeches were delivered by Messrs. Nealand, Bailamy, Colpitts, Grayson, Lang, Hannah, Davidson, Ferguson, Green, Wright, Ostrander and Baker.

At the close a vote of thanks was moved the retiring council by Mr. H. Eogue and seconded by G. M. Annable.

CHRISTMAS ENTERTAINMENTS

Presbyterian and Methodist.

The annual Presbyterian Sabbath School entertainment was held on Monday night in the town hall, which was crowded to overflowing so much so that upwards of fifty were turned away.

A large programme was provided. The singing by the Choir in the opening and closing pieces was good, and the recitations by Bertha Hannah, Lizzie Hood, Willie Bedford, Marion Morrison, Archie Hood, Warren McBride, John Rollo and A. Armstrong, were all well rendered.

The Breach of Promise of Marriage Suit was well carried out, every detail of an English Court scene being produced. The boys in their wigs and gowns, the witnesses in their character classes were especially good. Rev Mr. Clay as 'Sergeant Snubbin' and W. J. Nelson as Sergeant Buzfuz and Mr. Seymour Green as Judge Stairleigh acted their parts perfectly. The whole was a most amusing farce.

The song "When ye gang awa' Jamie" by Winnie McLean and Neil Morrison, was remarkable good. The tableau "Tapping at the Garden Gate" was excellent and the song by Marion Morrison accompanied by little Mary Simington on the organ, both children being only six years old, brought down the house.

The song by Albert Healey, "Laughing Old Farmer McGee" was well rendered. The dialogue "A visit from the Smiths" by several children, was very well rendered and was one of the best pieces on the programme.

The Dialogue by the Bible class "John Robb and Anna Cobb" was also good. The last part "A Fairy Scene" was very pretty, but unfortunately was somewhat marred by the smoke that followed the blue light.

The proceeds were \$80.

METHODIST.

The annual Sunday School entertainment and distribution of Christmas presents in connection with the Methodist Church, was held on Tuesday evening. The seating capacity of the hall was not adequate for the large turnout and many were compelled to stand throughout the evening.

The entire entertainment consisted of the presentation of Mary's celebrated Cantata in which the members of the Sunday School took part, each couple being dressed to represent a different nationality. Such a large number took part that space will not permit us to give their names.

The best characters presented were the Chinese gentleman (Nelson Brown) and Japanese lady (Ida Bastell). The grand march in costume was especially fine. The management is to be congratulated on the marked success of the entertainment. The proceeds of the evening netted \$75.

MOOSE JAW CREAMERY.

Prospectus Submitted by Mr. W. Watson.

To the Provisional Board of Directors of the Moose Jaw Creamery Association.

Pursuant to appointment I hereby respectfully submit a report on the probable cost of starting a creamery in Moose Jaw and the profits likely to accrue to shareholders and patrons.

As it is intended by you that it will serve as a prospectus to your Co., I undertake the task with very considerable hesitation. Prospectuses are frequently misleading, sometimes deceptively so.

As this is the first attempt to start a joint stock creamery in the Territories I have no North-West data to guide me. My knowledge of the Dairy has in Ontario extended over twelve years and my record as a pioneer amongst you is the only guarantee I can offer as to the correctness of my data and conclusions.

Granted that there is a general consensus of opinion—that if successfully operated a creamery will be of much permanent benefit to our people as well as an object lesson to other districts it presents itself in two aspects.

First. Will it pay reasonable interest to parties who invest their money in it.

Second. Will it pay those who supply the cream—its being a Limited Joint Stock Co. with shares amounting to only \$10 each and less than the maximum number that can be held by one person? The amount of interest which will be paid on shares is or ought to be of secondary importance or subordinate to the public benefits likely to accrue to the community from having a first class creamery established in the district.

And yet my experience has been, and my best judgment now is, that if the cream of four hundred cows can be secured and guaranteed within reasonable distance from the creamery and the R. Road stations met and that 12 percent can be paid on the capital invested each and every year that the creamery is in operation. The voice of the majority of shareholders can make it absolutely certain and imperative that a reasonable dividend shall be paid.

With regard to the first and more important question, will it pay those who furnish cream? It is much more difficult to give an answer, because while most people are agreed as to what constitutes fair interest on money permanently invested, much diversity exists as to what will be reasonable pay for cream sent to a factory. My experience has invariably been that those who give least attention to their cows and get the smallest benefit from them at home are the most difficult to satisfy and the most exacting when they send their milk or cream to the factory.

The subjoined data gives an approximate estimate of the cost of building machinery, usually for a capacity to run a creamery of four hundred cows, combining the cream setting in the ordinary way and centrifugal cream separating systems. The buildings are of the smallest possible dimensions and if the business increases must be enlarged.

Continued on page 2.

Moose Jaw and West.

REMARKS. N. W. T., Dec. 27.—The North West assembly will be pronounced on Saturday next after a session lasting about three weeks. Since the Haultain Government was re-instated matters have been rapidly moving although there are some dissensions in some quarters. A small no bigger than a man's hand appearing on the political horizon and that a renewal of the recent troublesome times is imminent. It is freely stated that the best of feeling does not exist between Governor Dugal and his advisors. Last week at the instance of the executive committee a resolution was passed by the assembly and telegraphed to the Dominion government insisting in their right to control appointments of officials under local ordinance which right Governor Dugal claims for himself. Since the resolution was filed to Ottawa Dugal's members on his floor have weakened somewhat in the debate.

NOTES AND COMMENTS.

A benevolent old gentleman in Philadelphia asked the postmaster-general at Washington to forward to him all letters addressed to Santa Clause, of which a good number each year find their way into the post office. The promise was that in each case the little sender would receive a present. The post office department declined, saying the letters must go to the dead letter office.

The third page of the Toronto Daily Mail is noted for "Want" advertisements. If you want a situation, a business, machinery, lodging, if you have lost or found anything, or if you want to find out where anyone is, advertise in the Toronto Daily Mail and read the advertisements on the third page of that paper. The charge is two cents a word each insertion, or ten cents a word for six insertions. Address The Mail, Toronto, Canada.

The direful collapse of the French Panama Canal company, after spreading bankruptcy and distress over the country, is now re-echoed in an interminable tale of political scandals. Bribery of officials in high station, systematic suborning of the press, disgraceful traffic in contracts, and lucrative appointments have all been shown to be incident to the attempt of the government of France to carry out a distinctively private enterprise. Ministers have been overthrown, men of high standing have been known since the days of the Credit Mobilier, when the American government made the same blunder of trying to enter into co-partnership with private corporations.

Mr. Archer Baker speaks in these words regarding his recent western trip:

"The journey across the prairie from Winnipeg westward must naturally be full of interest to those of us who have been striving for several years to make these fertile acres the home of British settlers, and to note the thriving substantial air about such centres as Brandon, Portage la Prairie, Virden, Regina, Moose Jaw, Swift Current, Maple Creek, Medicine Hat, Calgary, Edmonton and the rest. The self-binding reaper was busy everywhere among the corn, and all we met were full of tales of wonderful yields and improving prospects. Of course, there have been failures, and will be so long as man is mortal and at times gay and weak; but all I can say is we met no failures. Perhaps they kept out of our way; I don't know. What I do

know is that we talked freely to all we met, and while some, of course, were more glowing than others, all seemed certain that the North-West was the best country they had yet struck, and the country that gave them the best of health and promised them a speedy independence."

If you want to buy or sell a farm, advertise in the Toronto Weekly Mail. That paper reaches 100,000 farmers' homes every week and your advertisement should reach the eye of some one who wants to purchase. Advertisements of this class are inserted in the Toronto Weekly Mail for fifty cents a word for each insertion or Twenty Cents a word for five insertions. Address The Mail, Toronto, Canada.

There is an outcry in England just now against the practice which obtains at some high schools, notably at Rugby of requiring boys to take occasional five mile runs as a part of the regular athletic exercises. One lad of fourteen, after having been medically examined and pronounced sound, ran four and a half miles in forty minutes and dropped dead from over-exertion. This is the first fatal result. Of 505 boys at the school 124 were excused from running during the last term by the medical examiners. The outcry caused by this death has been increased by a proposition since made that once a year boys of seventeen who are pronounced sound shall run a twelve-mile race.

The Chicago Elevator and Grain Trade says: "The Chamber of Commerce at Grand Forks, North Dakota, in talking over the seed wheat question a good many years ago when the first wheat first began to attain its present popularity and was known as 'Scotch life wheat,' thought perhaps superior seed might be obtained in Fifeshire, Scotland, where it was supposed to have originated, and sent to a correspondent in that country an order for 20 bushels 'Scotch life wheat.' They were considerably surprised to receive a reply stating that there was no such wheat known in Scotland, and in fact as spring wheat of any kind raised in Fifeshire. This led to an investigation into its origin and after many inquiries it was discovered that the wheat originated in Canada in the vicinity of Manitoba. It appears that when Selkirk brought over his Scotch colony to Manitoba about 1858, he purchased for them a supply of seed after their arrival, and among other lots he obtained a supply of seed wheat from a Scotch settler named Andrew Fife, which was so different in character from the rest that it was kept separate and sown by itself and called after the man from whom it had been obtained. Fife seed. Its strength, hardness and power to resist disease soon made it a favorite with the colony, and it spread into the Red River valley and Minnesota and after a few years was raised extensively."

Concluded from first page.

RECEIPTS AND REVENUE.

Total cream from 400 cows at the rate of 3/4 of a lb of butter per day per cow 300lbs |

Total amount of butter for 6 months less 26 Sundays, cream likely to be used at home, or 156 days at 300 lbs per day 46,800lbs |

Revenue at 40c per pound of butter \$1872 |

Balance on hand after paying cost of running for six months \$222 |

4th

Approximate amount per cow for 156 days (or for 5 months less 26 Sundays) at 2/4 of a pound per day or 117 lbs @ 24 cents per lb) the average price expected to be realized for 1st class creamery butter) less 4 cents per lb for manufacturing &c &c or 50 cents net per lb to patrons, \$23.40

Approximate value of balance of each cow's milk. As each cow will milk nine months, 115 days' cream remains with the patron at 1/4 lb butter per day 57 1/2 lbs at 20 cts per lb, \$11.50

Total value of cream for 9 months per cow \$34.90 |

And all this milk at home for use of family, raising calves &c

In order to get the best results from milk, the Centrifugal Cream Separator is indispensable, by its use an average of over 15 per cent. more butter can be realized from the milk, and from 2 to 5 cents more per lb. The reason for the increase in price is because the cream being extracted while the milk is warm it is much less liable to taint, resulting in a more uniform and better flavoured butter.

I therefore recommend that a Centrifugal Cream Separator to be operated by the engine be placed in the creamery, and that hand cream separators costing about \$100 each, be placed at or near each railroad station or neighborhood, where the cream from 50 cows can be got within a radius of about 2 1/2 miles, as soon as settlers learn to operate them, and they will be held responsible for them.

The results in the near future of adopting the Centrifugal Cream Separating System, will be most important far reaching and beneficial. It will bring labour saving machinery for the 1st time into the domain of woman's work amongst us, relieve the household of the daily recurring labour of cleaning, scalding and airing milk pans setting skimming, churning, washing, salting, packing and marketing butter. And by getting regular monthly cash payments, pave the way to abolish the trade and credit system, to the mutual benefit of both buyer and seller. And further it would enable the farmer to keep about ten or twelve cows, with as little household labor as at the present time with three or four, quadruple his herd or cattle, utilize to a corresponding extent the almost boundless, matchless, priceless pastures going to waste all around here and ensure the keeping open of the creamery nine months in the year. And by thus removing the labour from the house to the creamery it will give more leisure to adorn the home and its surroundings, improve the intellect, give greater attention to social civil and religious duties, and tide scatheless over the years when crops fail and prices are low; and while living in greater comfort assist to lay by a larger nest-egg for a rainy day. Will not the settlers in our good District rise equal to the occasion, and our famed regiment of bachelors lead the van.

WM. WATSON.

\$50 REWARD.

Fifty dollars reward will be given to any person giving information of any person building cattle belonging to the undersigned or to the late firm of Macdon Brothers and any person obtaining or keeping possession of same after this date will be prosecuted.
